

April 10, 1965

Utah State Department of Fish and Game
1596 West North Temple Street
Salt Lake City, Utah

Gentlemen:

Lithium Corporation of America has, by letters of March 17, 1965, copies of which were sent to you, made application to the State Land Board for a Utah State lease for mineral salts, as provided in Rule 24 of our Rules and Regulations Governing the Issuance of Mineral Leases, on the bed of the Great Salt Lake in T. 7 N., Rs. 4 and 5 W., SLM., totalling 17,920.00 acres. These lands are immediately north of the lands presently held under option by the applicant.

Inasmuch, as these lands are within an area which has been set aside by the Legislature for the operation and management of game bird refuges, sanctuaries, public shooting grounds and other recreational activities this office would like your department to review these applications in light of your plans for this area.

It would be appreciated if you would let us know if you can consent to the issuance of these leases. If you do approve the issuance of these leases subject to any special provisions the Land Board will be glad to include these provisions in the leases.

I hope you can give this request your early consideration.

Very truly yours,

DONALD G. PRINCE
ECONOMIC GEOGRAPHER
